March 22, 2000

To Whom It May Concern:

Neaser Construction Incorporated has worked with Bering Strait School District to meet its major construction needs for over fifteen years. Most of the projects have used the design/build construction methodology.

WHITE MOUNTAIN

Projects have included new construction, remodel/addition, and fire replacement. We have also employed NCI, using the "fast track" approach to construction, in completing a fire replacement school. Basically, Bering Strait School District gave NCI full control of getting the school designed and constructed in the shortest amount of time without sacrificing quality, at the same time adhering to a tight budget. The new school was completed and occupied within eleven months from the date of the fire.

Based on our relationship with Neaser Construction and their track record with Bering Strait School District, I highly recommend Neaser Construction Incorporated for any type of construction project they may pursue.

If I may offer further details, please contact me at (907) 624-4249.

Sincerely,

Bob Dickens  
Maintenance/Facility Director
