Attn: Gerald Neeser, President

Dear Mr. Neeser:

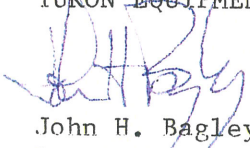

We have been using our new building addition for approximately six months. The job progressed as scheduled.

Your crew did an excellent job. They were very considerate of our employees when they were working near them. The quality of the work performed by your people was good.

If we were going to do another addition of this type I would give your firm the opportunity to bid.

Very truly yours,

YUKON EQUIPMENT, INC.

John H. Bagley
President
