REPLY TO
ATTENTION OF:

Facilities Directorate

To Whom It May Concern:

Neeser Construction, Inc. recently completed the new Military Entrance Processing Station located at 1515 "C" Street in Anchorage, Alaska.

This design/build project for our Headquarters located in North Chicago, Illinois, was funded through and coordinated with the General Services Administration in Auburn, Washington. Despite inherent problems associated with a multi-governmental contract with changing agency requirements, the project as a whole was completed on time, within the contract limits and to our satisfaction.

This fast track project understandably took close coordination, timely responses and the cooperation and willingness of all those involved to produce a facility which meets our needs in function, design and interior finishes.

To date we are happy with the project and can recommend, without reservation, Neeser Construction, Inc. for your construction project.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Milicez".
