Re: BRANCH OFFICE RENOVATION

Dear Gary:

Just a note to formally commend you on a job well done in our Anchorage facility. Not only was the workmanship of the highest quality, the coordination and cooperation between you and your subs and the IBM personnel was outstanding.

A renovation such as this - in totally occupied space with a "business as usual" posture - is at best horrendous; but the final result is a tribute to your professionalism. Thank you for a job extremely well done.

With best wishes, I am sincerely,

Martin A. Myers, AIA  
Regional Division Coordinator
