RE: South Anchorage High School Intercom System

Neil,

I want to take this opportunity to thank you for the extra effort put forth by Neeser Construction and Megawatt Electric to bring resolution to the issues we were experiencing with the installed intercom system at South Anchorage High School.

Tony Gongliewski and Dennis Hebert of Megawatt Electric effectively led the effort with professionalism, tenacity, and courtesy. It was through the diligence and cooperation of each person involved that we now have what we believe to be a fully functional and reliable intercom system with which the school staff has a renewed confidence.

Your resolution of the very complex intercom issues at South Anchorage High School was just another case where you have gone the extra mile to assure that the District's needs were fully met. This shows once again that not only does Neeser Construction successfully deliver quality construction projects on time and within budget, but they also have a long term commitment to the completed projects. Neeser Construction truly does work to deliver the very best project possible.

Thanks again,

A handwritten signature in black ink, appearing to read "MP", with a long, sweeping underline.

Mike Price
Construction Manager
