RE: Letter of Recommendation

To Whom It May Concern:

At the request of Cal Myrick of Neeser Construction, Inc. (Neeser), I am writing this letter of recommendation based on my working relationship with Cal on the construction of new schools in Togiak and Hooper Bay, Alaska valued at approximately 48 million dollars.

I can attest to Neeser Construction Inc., in particular Cal Myrick's outstanding character, both professionally and personally. I am extremely fortunate to work with a contractor who possesses the breadth of experience and integrity that Cal has shown throughout this project. Neeser has consistently proven to be equitable in all aspects of the project both planned and unplanned. Their focus has been one of a completed project of high-quality from start to finish. In my career of 24 years, Cal Myrick and Neeser Construction Inc., has maintained the highest degree of integrity, workmanship, attention to detail, and client satisfaction.

In the early phases of the Togiak and Hooper Bay projects, the leadership and professional qualities it takes to obtain the desired results for such a large and logistically challenging project went off with out any complications. Working conditions in both of these locations were some of the most extreme conditions that I have ever encountered, yet both projects were completed ahead of schedule and under budget. Their meticulous attention to detail and ability to provide the best product for the client is immeasurable.

Because of Neeser's demonstrated abilities, I would welcome the opportunity to work with them on future projects. I highly recommend Cal Myrick and Neeser Construction, Inc. on any construction project. Please contact me with any questions or if you require further information. My number is (907) 276-4245.
