Anchorage, Alaska 99503

To Whom it May Concern:

Unalakleet/Neeser Construction has recently completed a 20,000 s.f. elementary school addition (3.3 million) for the Yukon Flats School District in Venetie, Alaska. Unalakleet/Neeser is currently working on a new 10,000 s.f. (2.2 million) combined school facility in Stevens Village, Ak. The district has worked with this contractor for approximately 1½ years to date and will have worked with U/N for over 2 years concurrent with completion of the new Stevens Village School.

A letter of reference for a construction firm should address items such as: creative logistical effort, initiative at pointing out and correcting design errors, concern for implementation of quality workmanship, and timely execution of scheduled work.

U/N Construction is a firm that excels at a level above descriptions utilizing trade terminology. They are a cohesive, enthusiastic group of professional builders, they are pleasant to work with, and they inspire a high level of confidence and in all phases of project development. When your project goes to bid you hope to get a good contractor within budget limitations. In this particular School District we would prefer to have Unalakleet/Neeser.

Sincerely,

Don J.
